

1. HANDLE/GRIP:

The soft grip provides comfort to the ergonomic and easy to use handles as well as offering colour contrast for those with visual difficulties.

2. MAGNETIC CLOSURES:

Strong magnetic strips and durable water seals enhance the opening and closing functions.

3. LOCKING HANDLE:

Unique and robust ergonomic locking handles ensure ease of operation and offer colour contrast for those with visual difficulties.

4 & 5 . RISE & FALL HINGE SYSTEM:

Resilient parts offer added strength to the bi-directional 180 degrees rise & fall hinge system. The doors lock into position when fully open.

6. WATER SEALS:

Quadruple dam bottom seals with incorporated water deflection flippers provide better water retention and a unique water seal which is superior to commonly used systems.

7. POLE CEILING CONNECTION:

Optional ceiling mounted full height 2.4m (special heights available) curtain support pole.

8. CURTAINS:

White weighted 2m drop as a standard. Available in 2m and 2.4m widths (depending on enclosure size). Durable polyester. Curtains can be easily washed.

9. CURTAIN RAILS:

Curtain rails available in Platinum Grey (Evolution® Chrome) and White (Evolution® White).

10. EVOLUTION® CLEAR:

Contemporary Chrome or White finish with 4mm toughened/security glass panels that conforms to BS EN 12600:2002 for impact test method and classification.

11. EVOLUTION® FROST:

Contemporary Chrome or White finish with lightweight polycarbonate panels, stronger than any other commonly used panel material in the market, conforming to ISO Charpy impact test method.

12. SOAP HOLDER:

Our beautifully finished Chrome Soap Holder is made from stainless steel and doubles as a robust support bracket for any fixed panel that does not have a pole.

13. COMPENSATORS:

Both standard and XL compensators allow adjustment of +7/-20mm. Standard compensators depth 44mm. XL (optional) compensators depth 94mm.

14. FULL HEIGHT POLE TO CURTAIN RAIL:

Pole to Curtain Rail mounting bracket (2.01m) where the pole is adjacent to the Curtain Rail.

15. POLE MOUNT SCISSOR BRACKET:

Pole to Curtain Rail mounting scissor bracket where the pole is in the corner of the enclosure.
